SETTING NEW STANDARDS

SEBO 300 / 350 / 450 EVOLUTION

30 cm

36 cm

46 cm

The SEBO 300 / 350 / 450 EVOLUTION is an upright vacuum cleaner that is completely focused on the essentials: providing the utmost in reliability and cleaning effectiveness on a daily basis! From the start, SEBO Stein & Co. established product durability, usability and ease of maintenance as its highest developmental priorities. As a result, the SEBO EVOLUTION sets new standards in the professional cleaning industry.

MADE IN GERMANY

THOUGHTFULLY DESIGNED IN EVERY DETAIL

SEBO 300 / 350 / 450 EVOLUTION

The SEBO EVOLUTION offers innovative features that simplify the user's cleaning tasks, while also saving time and costs related to machine service and maintenance. Its light handle weight ensures easy control and smooth manoeuvrability – even for longer work periods. The handy wand and integrated suction hose are immediately ready to clean hard-to-reach areas or typical above-the-floor items, such as furniture. Full-size crevice and upholstery nozzles are neatly and conveniently stored on the backside of the machine. The SEBO EVOLUTION stands out due to its sophisticated solutions, such as an overload-secure foot pedal, quick access to all parts and properly placed ergonomic handles. And, of course, it fulfills the requirements of the European Ecodesign Directive for vacuum cleaners.

01 Easy Cable Change

Fast and tool-free change of the cable and an integrated strain relief. This saves time and costs.

02 Innovative Brush-adjustment Technique

The brush height has four levels, which can easily be adjusted by the foot or the telescopic tube. If the brush is obstructed, the machine turns off automatically and gives notification.

03 Easy-to-change Brush Strip and Three Working Widths

The brush strip can be changed without the use of tools, by simply pressing a button, releasing the side plate and then sliding out the brush strip. The SEBO EVOLUTION is available in three working widths: 30 cm, 36 cm and 46 cm.

04 Dependable Filtration

The SEBO EVOLUTION is equipped with proven, long-lasting filtration that promotes smooth airflow and excellent suction performance. The exhaust filter is also available in the HEPA-class Standard.
