

PRODUCT INFORMATION JAMES VINYL & PVC CLEANER NATURAL & PROTECTIVE

STEP F - CLEANING

Purpose

- Daily cleaning and maintenance of vinyl, PVC and all other water resistant hard floors like linoleum, ceramic tiles, rubber, epoxy floors, natural stone and artificial stone floors
- Easy removal of soil

Features

- Highly concentrated cleaning product gives your floor a matt appearance
- Removes soil easily and maintains your floor whilst mopping
- Does not contain wax or synthetic dispersions, thus no buildup of wax layers
- pH value 10,2
- Based on natural ingredients
- Biodegradable

Instructions for use

- Dilute James Vinyl & PVC Cleaner Natural & Protective with water in the correct dosage
- Damp mop the floor using this solution
- Use a second bucket filled with fresh water to rinse your mop regularly, to keep the solution in the other bucket clean
- Leave the floor to dry completely
- Do not mop the floor using clean water afterwards

Note

- Your water resistant hard floor can be protected using James Semi Gloss (Step 2 - flask 2) or James Extra Matt (Step 2 - flask 3)
- Always only damp mop moisture sensitive floors

Dosage

- Daily cleaning: diluted, 1-2 caps (about 30-60 ml) with 1 bucket of water (8-10 l)
- **For additional protection:** Initial cleaning: diluted, 8 caps (about 240 ml) in 1 bucket of water (8-10 l). Next couple of weeks: diluted, 4 caps (about 120 ml) in 1 bucket of water (8-10 l)

Detergent Regulation

Soap 15-30%, non-ionic surfactants, anionic surfactants < 5%, perfumes, CITRAL, D-LIMONENE
