

## PRODUCT INFORMATION JAMES BANDIT

### STAIN REMOVAL

#### Purpose

- Revolutionary product against oil and grease stains on porous surfaces
- Removes stains like barbecue-, deep frying pan- and oil stains

#### Features

- Easily removes almost all oil and grease stains from concrete, cement, brick, wood, natural stone and other porous surfaces
- Scrubbing or brushing is not necessary: simply pour it on, let it soak and vacuum
- The surface will not be affected
- Easy to use

#### Instructions for use

- Shake well before use
- Pour a thin layer of James Bandit on the entire stain
- Do not scrub or brush
- Do not use James Bandit on a wet surface and / or plastics
- James Bandit will release the stain from the surface and turn into a dry powder within 30 minutes
- Remove the powder by vacuuming or sweeping and the stain is gone!
- For persistent oil or grease stains or severe soiling: repeat treatment

#### Note

- Flammable
- Do not apply James Bandit on a wet surface and/or plastics
- Use only in well ventilated areas

#### Dosage

- Undiluted, approximately 500ml / m<sup>2</sup>
