

PRODUCT INFORMATION JAMES CLEANMASTER

CLEANING

Purpose

- Deep and surface cleaning of carpets and upholstery
- Soaking product for heavily soiled surfaces, walkways and persistent stains

Features

- Suitable for synthetic and natural materials except wool
- Prevents fast resoiling due to dirt repellent components
- Restores the original colour of the material
- Always use James Cleanmaster in combination with a spray extraction machine
- Pleasant odour, deodorising
- pH value 6,8
- Proudly A.I.S.E. certified and biodegradable

Instructions for use

- (Brush) vacuum clean the carpet or upholstery thoroughly
- Slightly moisten the carpet or upholstery with water, this aids in optimally distributing James Cleanmaster
- Spray James Cleanmaster under low pressure on the carpet or upholstery
- On carpet: massage the cleaning product into the carpet using a James Microfibre Pad and a low rpm, single pad machine (120 to 180 rpm)
- On upholstery: massage the cleaning product into the upholstery using a James Microfibre Handpad
- Leave to soak for about 5 to 15 minutes
- Using a spray extraction machine, use clean water to rinse the surface clean and leave to dry completely
- On carpet: the treated surface could possibly be dried using a James Cotton Pad and a low rpm, single pad machine (120 to 180 rpm)
- On upholstery: we advise to cover the treated surface with a cotton cloth to prevent the creation of water circles whilst drying

Dosage

- For 500 ml spray flask: undiluted (ready to use)
- For 10 litre can: depending on the degree of soiling, undiluted or diluted until 1:10 with water
